# About Roca Tile USA - Lamosa Group

## Over 100 years of history to become a worldwide leader in tile manufacturing and distribution.

Roca Tile USA has been growing in the past decades adding showrooms and distribution centers in strategic locations to provide nationwide service. Today, Roca Tile USA is part of a worldwide leader in manufacturing, distributing and marketing of high-quality ceramic and porcelain tile. The company's product range offers solutions for multiple uses, from versatile wall tile to highly resistant indoor and outdoor floor tiles, including solid colors, marble, wood, concrete, stone, decorative tiles and a wide array of complementary pieces and mosaics.

On September 1st, 2021, Roca Tile became part of the LAMOSA GROUP, founded in 1890 by Bernardo Elosua & Viviano Valdes in 1890 in Monterrey, Mexico's industrial cradle. 130 years later, Lamosa has become one of the largest manufacturers of ceramic tile in the world with 20 tile production plants in 6 different countries, with yearly production exceeding well over 200 million square meters. All this is possible thanks to the now 9,000 employees who have managed to take the company to its current position, following the company's drive for constant innovation and continuous improvement in products and a company culture based on service, technology and sustainable innovation. Through the acquisition of Roca Tile, the Lamosa Group continues its course as a pioneer in the industry, hoping to exceed customer expectations and stay ahead of market trends.

## Sustainable with conviction

At Roca, our commitment to the environment goes beyond compliance with the regulations in force, taking measures in accordance with the circular economy to reduce our impact on the environment, with the reduction of material consumption and the reuse and recycling of natural resources such as water.

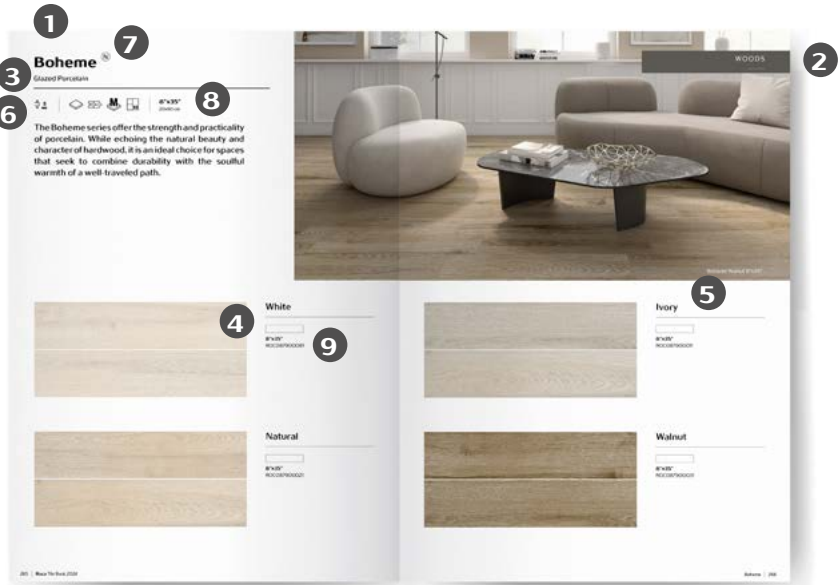

All Roca products can help you obtain a better score in the LEED (Leadership in Energy and Environment Design) metrics, the most widely used Green Building Certification for sustainable buildings, so that our tiles contribute to the improvement of the environmental characteristics and facilitate the sustainability certification of the buildings where they are employed.

We apply rigorous continuous improvement and sustainable criteria programs at all phases of our production processes, which are reviewed externally on a regular basis with the Integrated Environmental Authorization (AAI), ISO 14001, ISO 14021, ISO 9001, DAPcons®, GlobalEPD, UPEC and CCC certifications; as a guarantee of quality and environmental compliance of our wall and floor tiles.

## Product types

### Ceramic Wall

Carefully selected raw materials form the basis of these collections, perfect for a wide range of interior uses. High performance ceramic surfaces, with the nuance of additional luminosity that the white-body glazing brings, offered in a variety of formats, decorative complements and special-use pieces.

### Gres Stoneware

Vitreous body that provides great resistance qualities that are applicable for floor use, as well as versatility for wall installations.

### Glazed Porcelain

Inspiring present day proposals to decorate the spaces where you work create and live, with collections of high technological innovation. Wall and floor tiles with finishes suggesting the touch and look of natural materials, with the added value of porcelain.

### Color Body Porcelain

Unique collections of full-body colored porcelain tiles, with the same qualities in its interior and surface, as well as superior properties of hardness, resistance and impermeability Their unalterable finishes faithfully reproduce the textures and reliefs of marble, wood, stone and cement in rich detail.

### Polished Porcelain

Ranges of exceptionally bright rectified porcelain tiles, adding the properties of ceramics to the beauty and natural reflections of polished marble, without the need for care the porosity of stone usually requires.

### Technical Porcelain

A product of the most advanced innovation and technology, this porcelain is completely vitrified and colored through its mass. Versatile in its aesthetics and performance, this product offers superior properties in resistance and hygiene.

## Types of application

### Trims

## Shade Variation

Observe the shade variation in the tile you choose

The variety of raw materials and pigments used in the composition of porcelain and ceramic products and their peculiarities can result in tiles with different fluctuations in tone or texture in their final finish.

On certain occasions, the multitude of nuances that are obtained with changes in tone, relief and detoning have the objective of mimicking the stones, wood or cement that inspire them. This variation becomes an added value to contribute to floors and walls.

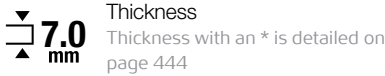

To provide information about our tiles and their chromatic diversity, we have classified them into four levels, where the pieces classified with category V1 have practically no changes in tone, detoning or texture in their finish, the classification V2 is for parts with a slight variation, V3 is when the variation is average and V4 is when there is a great complexity of shades of color, textures or significant detoning between existing pieces.

Therefore, before choosing a ceramic finish, get to know the product and its details, see in what shade variation category it is classified and choose the one that best suits the space and your needs.

	Statuary 4"x10" Beveled	7.3 mm

# Tile Care

To maintain the beauty and elegance of Roca tiles, we recommend the daily cleaning of the material using conventional procedures.

To remove remains of dust and solids: sweeping or vacuum cleaning.

Do not use dust-catcher mops with silicone or wax.

The cleaning of the surface should be carried out with neutral soap and the amount of water recommended by the manufacturer.

Do not use cleaning products containing wax, brighteners or with similar additives as they may leave a waterproof layer on the tile over time that will affect its surface appearance.

We recommend the use of doormats, which should remain clean, in the entrances to tiled areas, either from the street, terraces or gardens, to avoid the entrance of abrasive elements. Special care should be taken in areas close to beaches or construction works, as sand or stones might be brought in.

We recommend placing protections on the objects that might damage the tile when dragged (metallic legs of tables, chairs, etc.), being especially rigorous with gloss and satin finished products.

Should the dirt not be removed entirely, we provide the following chart, where you may find the suitable cleaning agents for each type of dirt:

TYPE OF STAIN	CLEANING AGENT
Oil, ink, marker pen, tomato, fruit, chocolate, grease	Organic solvents: alcohol, turpentine, acetone Alkaline detergents in liquid or powder form Bicarbonate
Tar, rubber, shoe polish, paint, graffiti, wax, resins, marker pen, nail polish	Organic solvents: alcohol, turpentine, acetone
Coffee, ice cream, nicotine, wine	Alkaline detergents in liquid or powder form
Lime, cement, beer, metal deposits, soft drinks, fruit juices	Diluted acids: vinegar, hydrochloric acid
Glue, chewing gum, tyre or shoe rubber	Organic solvents: alcohol, turpentine, acetone Diluted acids: hydrochloric acid
Blood, mercromina, iodine	Oxidant: oxygenated water
Incrustations	Pressurized water

Never use any products containing hydrofluoric acid, only those indicated in the table above.

All the products in this table may be easily found in ordinary household stores and shopping centres.

## Specially indicated for polished porcelain tiles:

Once the entire material has been laid and the remains of cement, pointing and other building material have been cleaned, on some polished surfaces the presence of an “oily” film can be observed due to the “stain-resistant” inertisation treatment they are given. Should this occur, Roca recommends the cleaning of the surface with drycleaning products (powder detergents), and once that fine protective layer has been removed, then clean the product as indicated previously. In extreme lighting conditions, light reflections might occur due to the high degree of brightness and the features of the product.

We recommend cleaning stains immediately.

# Warranty And Conditions Of Sale

## Return authorization and shipment claims

- Requests for credit or correction for errors caused by incorrect order entry or shipment must be submitted in writing and sent via fax or e-mail to the Customer Service Department within 1 month of invoice date.
- Claims as to breakage, shortage or overage in quantity should also be sent in writing to the Customer Service Department no later than 5 business days after delivery. There will be no exceptions to this policy under any condition.
- Any discrepancy should be noted on the bill of lading and veried with a signature from the driver delivering the load.
- Any claims of defects in quality shall be made in writing to Roca Tile USA Inc. immediately upon discovery.
- Roca Tile USA Inc. shall be provided samples adequate to test the product claimed to be defective and shall be afforded the opportunity to take its own samples.
- Notication of refused shipments must be communicated to the Roca Tile USA Inc. Customer Service Department within 1 business day in order to process a Return Authorization form and credit the customer’s account.
- Material cannot be returned without rst obtaining approval from Roca Tile USA Inc. through a Return Authorization consent form. Roca Tile USA Inc. will only accept return of current inventoried product in full cartons and in good, saleable condition within 30 days of purchase date. A 20% restocking charge will be applied to any returned materials and customers will be responsible for the freight cost of return.
- There will be no refunds/returns on natural stone, setting materials, and special order products, as all sales are final on these items.

## Shipping claims

- Unless otherwise stated on the bill of lading, the Roca Tile USA Inc. terms of shipment are FOB origin.
- Once a shipment has left the Roca Tile USA Inc. warehouse, the cargo is the responsibility of the consignee.
- When the shipment is picked up at the warehouse, the driver must sign the bill of lading indicating the number of pallets on the shipment. When the shipment arrives at its destination, the customer should ask the person who receives it to count the number of pallets. If there is a discrepancy in either pallet count or condition of the material, it must be noted on the bill of lading in the presence of the driver.
- Obvious damage to the shipment must also be noted on the bill of lading. Claims of this nature will not be honored unless noted on the bill of lading.
- All damaged goods must be held for inspection or until the claim is settled. Claims relating to breakage will only be accepted if the shipment has been coordinated through Roca Tile USA Inc. Customers who coordinate a pick up through their own carrier should le claims directly with the shipping company.

## Container orders

- Transportation for import container shipments is the responsibility of the consignee once they have cleared Customs at the Port of Entry, unless otherwise agreed with Roca Tile USA Inc.
- When the shipment arrives at its destination, please inspect the contents of the container before signing the bill of lading. Obvious damage must also be noted on the bill of lading in the presence of the driver.
- Any charges incurred after the shipment clears Customs will be the responsibility of the customer. Claims of this nature will not be honored unless noted on the bill of lading.
- Please take pictures before and after unloading pallets for insurance purposes. Roca Tile USA Inc. will le insurance claims for you if we are notied within 5 business days of receipt of the shipment.

- Title for material on Direct Container shipments is transferred upon issuance of the bill of lading. Requests for credit or correction for either damages or breakages not made within 10 business days of receipt of shipment will not be allowed. For assistance, contact the Roca Tile USA Inc. Customer Service Department.

## Quality

Roca Tile USA Inc. is responsible only for products manufactured and packaged at locations duly authorized by Roca Tile USA Inc. Roca Tile USA Inc. warrants only that the products it sells will at the time of delivery meet the applicable specications Roca Tile USA Inc. makes. No other representations, or warranties, or quality, or merchantability, or tness for any purpose and none shall be implied by any written or oral statements made by any Roca Tile USA Inc. employee or agent. Any quality claims included but not limited to shade, appearance, caliber or obvious defects must be communicated before the tile is installed. Installation constitutes acceptance. Once installed, Roca Tile USA Inc. assumes no liability for claims related to product.

## Limited warranty

Roca Tile USA Inc. warrants that its First Quality (i.e. Standard Grade) ceramic tile is manufactured according to ANSI A137.1-1988 and meets or exceeds those requirements. Roca Tile USA Inc. makes no warranty as to the suitability of its tile for a particular installation. Roca Tile USA Inc. does not warrant that its glazed or unglazed tile will not scratch, chip or show signs of wear. Should a tile product be determined not to conform to the Roca Tile USA Inc. warranty, the buyer’s sole and exclusive remedy shall be a replacement of the product with tile of compatible color and shade, as determined by Roca Tile USA Inc.

Labor and installation charge are expressly excluded from this warranty. Roca Tile USA Inc. shall not be liable under this warranty for any other damages, costs or expenses including, without limitation, any incidental or consequential damages. The warranties set forth herein are in lieu of all other warranties expressed or implied. Roca Tile USA Inc. disclaims all other warranties including implied warranties of merchantability and tness for a particular purpose. The use of muriatic acid (hydrochloric acid) in removing grout haze will void all warranties.

## Order policy

Once you have received an order confirmation from your customer service representative, there is a 24 hour window to verify that your order is correct and a ship date needs to be provided. Material can be held for 2 weeks without shipping confirmation, after that, the following circumstances would apply:

- a) A 25% deposit (non refundable) is paid in order to hold material for 60 days. After 2 months of being allocated, material will be released and deposit lost.
- b) 100% payment of the order. In this case, product will be held at our warehouse for up to 4 months. After that, storage fees will apply.

## Handling Fees

A broken pallet fee of \$65.00 will be added to orders for quantities smaller than a full pallet for 40"X80" and 48"X98" items from the Slabs series.
